Ferries

connect the two riversides
for those on a
sightseeing walk

In Basel there are great places to stay for every budget and every taste

From simple low budget youth hostels (50 .– SFR per person and night)

to affordable hotels from 160 .– SFR pp or 200.– per room

and prestigious residencies

The University of Basel

The University of Basel

is the oldest university in Switzerland, founded upon the initiative of local citizens in 1460.

Today the University is a modern and attractive centre of teaching, learning and research. It ranks among the world's 100 best universities and boasts a top-ten place among German-speaking universities.

The Institute of Biomedical Ethics

was founded in May 2011 and its currently 14 – soon 21 members form a dedicated team committed to make a next ESPMH congress an enjoyable and successful experience for you.

The University's Congress Facility

The Kollegienhaus of the University of Basel is prepared to host the ESPMH congress and is a lovely, central building, easily reached by public transport.

Modern theatres are available and we can book several rooms of any size with excellent equipment.

Weather permitting we can have an ice-breaker party in the back garden of the building which is also an inviting place to relax between sessions.

After the conference: out and about in Basel

Basel has a lovely and secure Old Town so enjoy whatever you like: nightlife, shopping, sightseeing, relaxing and of course:

Great food and drink

There are many renown restaurants with excellent food but also small pubs where you get delicious specialities.

Concerts, plays, movies and art offer you cultural entertainment. Look not only for the famous and established halls but also for small stages and art behind the block.

After the conference: out and about in Basel

Or maybe you fancy taking part in the annual “Basler Rheinschwimmen”

After the conference: three regions to explore

Photo: Stephen Clark

The Jurassic Mountains (CH)

Basel is on the slopes of the Jurassic Mountains offering great hiking and biking.

The Black Forest (D)

Just across the border the Black Forest invites to discover its treasures.

The Alsace (F)

with its delicate wines and exquisite French cuisine is the place of choice for a short relaxing break.

We would be happy to welcome you in Basel!

Your Team of the
Institute for Biomedical Ethics, University of Basel

Presentation

presented by **Prof. Bernice Elger**
head of the institute
